# FilmPhoto.co.uk

- ✓ We work from your brief - We also discuss things with you at length to find out what your actual requirements, perceptions and expectations are. - If you're unsure, we will discuss and become part of your creative team.
- ✓ We give you written quotes and stick to them
- ✓ We don't give you a massive selection of images to choose from, We clean the shoot only to provide you with the top quality print images. We provide the images that fit to your brief. We firmly believe that providing you with 200 images of the same subject will only confuse the issue and make your task more time consuming and difficult.
- ✓ We will work round the clock including weekends to give you what you want when you need it
- ✓ We do treat you with respect however large or small your project, we will provide the creative experience to know if the image you request is the right one. We will help with your final image selection .... only if you request it. We firmly believe that any project of this type is a partnership between the client and the photographer.
- ✓ We don't provide a substandard fast image service, The images that we provide are key to your business. If we provide a fast sub quality product, that will reflect on your business. We want you to come back to use and use us again.
- ✓ We don't give you the copyright  
Copyright stays with us unless you want to pay us a fee which reflects the purchase of the copyright. We will arrange a license with you that will allow you to fulfil the requirements of your brief.
- ✓ We don't master every single image  
We shoot hundreds of images in a session. In an hour we can shoot up to 200 images when covering an event or group set-up. You only want the few final images you're going to use. You get to choose these by previewing your proofs online using our proofing system.
- ✓ We will go to the ends of the earth. We will mean what we say. We will do anything you request as long as you stick to your side of the bargain. i.e. You give us a clear brief and pay us on time!
- ✓ We don't take on every job we're offered  
We don't take on everything because we have the highest standards. If you want an amateur that wants to make a few bob on the side, then we are not the photographers for you. We are totally 100% professional
- ✓ We don't do pitches based on lowest cost alone  
We'd rather you hired us for our style, quality of our images, attention to detail and ability to deliver.
- ✓ Advertising, reportage and commercial photography are specialties. Not all photographers have exactly the same skills sets. They are all trained to do the basics but they excel in their own areas.
- ✓ We will travel, anywhere, anytime, in any conditions,  
We are professionals. We love what we do. We create beautiful images because that's our life. So we don't mind if it takes a bit of discomfort to do it.
- ✓ We have invested many £1000's into the equipment that we use to provide you with the professional images that you require. We will compromise at nothing to obtain the right images for your brief. Always using the latest technology.
- ✓ With digital capture you only pay for the time taken to produce the images you finally select. So, if you only require a handful of images there's no need to pay for prints or scans of every image shot.
